

ABOUT HTEC

HTEC is unlocking hydrogen's potential to reduce pollution and climate change by building hydrogen supply solutions and station networks to support the rollout of fuel cell electric vehicles.

OUR SOLUTIONS

Hydrogen plays an important role on the path to carbon neutrality and decarbonization in transportation, industry, homes, and workplaces. HTEC provides the glue in the clean hydrogen value chain, integrating the required technologies, systems, people, and partnerships to ensure hydrogen's role in our clean energy future. HTEC's business is built on two platforms:

HYDROGEN TECHNOLOGY SOLUTIONS

Engineering, design, and specialty products and solutions to clients globally.

Production & Processing

Distribution & Logistics

Fueling Solutions Design

Technical Solutions

HYDROGEN INFRASTRUCTURE

Hydrogen production and processing facilities, distribution systems, and fueling stations in key North American markets.

Production Facilities

Distribution Systems

Fueling Stations

OUR PARTNERS & CLIENTS

2021: Opened office in Quebec

Announced collaboration with Mitsui Canada to develop electrolytic hydrogen production

project in BC

2020: Opened third and fourth BC stations (North

Vancouver and Victoria)

Signed commercial MOU and secured \$20 Million

investment from Chart Industries

2018: Opened Canada's first retail hydrogen station in

Vancouver at a Shell service station

Won a 2020 Canada's Clean50 Top Project Award

Opened second BC station in Burnaby

Secured funding to build retail hydrogen station

network in Quebec

2009-2013: Partnered with Air Liquide and others to build

and operate the world's largest hydrogen fueling

station for Whistler Transit

2005-2009: Built and operated the first by-product hydrogen

purification and compression plant to support BC

Hydrogen Highway projects

Fueling the Drive to Hydrogen

At HTEC, we are focused on making zero-emission travel and transport possible, building the low-carbon future we want to live in and leave behind for future generations. We are unlocking hydrogen's potential to reduce pollution and climate change by

building hydrogen supply solutions and station networks to support the rollout of fuel cell electric vehicles. Every day, HTEC is delivering safe, reliable, convenient, sustainable, and low-cost hydrogen to customers and consumers, how, when, and where they need it.
